PROFILE SUMMARY

Motivated and results-driven Web Developer with a strong focus on Front End Development, seeking to leverage my technical expertise and creative problem-solving skills to deliver high-quality web solutions. With experience in building responsive, user-friendly websites and applications, I have successfully contributed to multiple projects using technologies like Nuxt.js, TailwindCSS, and Laravel RESTful API. At Privy, I played a key role in developing scalable front-end solutions, enhancing user experience, and ensuring seamless integration with back-end systems. My skills in JavaScript, HTML, CSS, and MySQL have enabled me to deliver optimized and performant web solutions. I am committed to continuous learning and staying updated with the latest industry trends to create innovative and efficient applications.

SKILL
